TAC PAL PRIVATE LIMITED - India
tacpalpvtltd@gmail.com - +91 9999003397

# Contents

01 Design and development support

02 Reverse engineering and localisation

03 Machine consultation and process review

04 Prototyping and sample development

05 Precision manufacturing and job work

06 Infrastructure and inspection

### HOW TO ORDER

Send a drawing, a sample, a photograph or a description of the problem.

We confirm scope, feasibility and the information still needed.

Reverse engineering starts from the physical sample or scan data.

Precision manufacturing is quoted from the drawing and quantity.

**tacpalpvtltd@gmail.com 0.6** +91 9999003397 India

Specifications are application-specific. Confirm the tool load and geometry against your press before ordering.
